Predicted Score Release Dates:

The following table is sourced from [PrepScholar](#) but I compared this information to past test score release dates and general trends and I agree with these predictions. I had to correct two of PrepScholar's predictions as they got the date of the test wrong on their website.

*Note: ACT scores are posted once per day at 12 a.m. Central time (10 p.m. Pacific time, 11 p.m. Mountain time, and 1 a.m. Eastern time). They are almost always posted on a Tuesday. While this is the general rule, it is possible that two people who took the test on the same day might still get their scores released at different times since they are released in batches. Multiple choice scores for the majority of test takers are typically posted on the second Tuesday after they take the test, and writing scores are released an additional two weeks after that.
